***DETAILED ACTION***

1. This is in response to communication on February 1, 2006.

***Examiner's amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Timothy B. Scull on February 1, 2006.

The following is an examiner's amendment:

Claim 17:

A computer program product embodied in a storage medium readable by a computer and encoding instructions for executing a computer process for managing version-specific information for a file within a file system, said computer process comprising:

storing version-specific information as en a version-specific attribute associated with the file, wherein the version-specific attribute comprises meta information relating to a virus scanning application that is independent from an application used to create the file and mask information providing information related to predetermined events which invalidate the version-specific attribute; and

invalidating the version-specific attribute in response to a predetermined access attempt.

***Allowable Subject Matter***

3. Claims 1, 2, 5, 7-14 and 16-21 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record failed to disclose: a method, a computer readable medium having stored hereon a data structure for executing a computer process of providing a file stored in a computer system with version-specific information relating to a virus scanning application that is independent from an application used to create a file, the method comprising: maintaining the version specific attribute to reflect relevant updates to the file by automatically invalidating the version specific information in response to a predetermined event wherein the version specific attributed comprise mask information providing information related to which predetermined events invalidate the version specific information as recited in claims 1, 10, 13.

the prior art of record failed to disclose: a computer program product embodied in a storage medium readable by a computer and encoding instructions for executing a computer process for managing version specific information for a file within a file system, said computer process comprising wherein the version specific attribute comprises meta information relating a virus scanning application that is independent from an application used to create a file and mask information providing information

Art Unit: 2161

related to predetermined events which invalidate the version specific attribute as recited in claim 17.

Claims 2, 5, 7-9, 14, 16 and 18-21 depend on these independent claims above. Therefore, they are allowed for the same reasons.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
